MACHINE-BUILDING PLANT, DNEPROPETROVSK, USSR

The Dnepropetrovsk Machine-Building Plant (formerly known as the Dnepropetrovsk Motor Vehicle Plant 3) is at 48-25N 34-59E on the south-

central edge of the city of Dnepropetrovsk, USSR. Known previous production at this plant included 3-ton trucks, parts, and wheels and links for tracked vehicles. It is now believed to be producing ballistic missiles of an unknown type (see SAC chart in map references).

This plant was covered by aerial photography of [REDACTED] 25X1D. Due to the poor quality of the photography, however, measurements of the plant facilities can only be approximated. Some areas of the plant were completely cloud covered so that the

KEY TO ANNOTATIONS

Item	Description	Length & Width (ft)	Roof Cover (sq. ft.)
1	Probable workshop, rail served	500 x 410	328,000
2	Probable workshop	370 x 330	122,100
3	Probable workshop	920 x 460	423,200
4	Two probable admin bldgs	145 x 145	99,425
		490 x 160	
5	Probable assembly building*	790 x 410	323,900
6	Probable assembly building*	1,560 x 450	702,000
7	Possible workshop	400 x 310	124,000
8	Possible workshop	610 x 420	256,000
9	Possible test building L-shaped	190 x 160	53,050
		390 x 135	
10	Possible workshop	349 x 210	71,400
11	Possible test tower (U/C)*	106 x 50 x 150' High	5,800
12	Possible assembly building	1,600 x 460	736,000
13	Possible storage building	270 x 230	62,100
14	Possible workshop	520 x 310	161,200
15	Possible workshop	890 x 340	302,600
16	Dnepropetrovsk Heat and Power Plant	460 x 160	73,600
17	TETS, "Vehicle" (111-1-111-111)*		
	Two cooling towers, each 130' diam		
Total			3,574,575

* These buildings are identified on the basis of the ground photography listed in the photographic references.

entire plant layout could not be shown nor could a complete square footage of roof cover be given. Definite individual building function cannot be given except in the several cases (items 5, 6, 11, and 16 on drawing), which were recognized from a ground photograph.

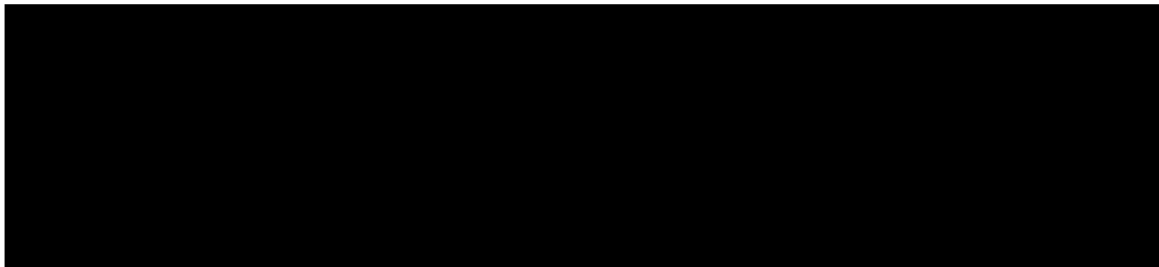

The overall plant area covers approximately 460 acres, with roof cover of the facilities measurable on the basis of the poor-quality photography estimated at 3,874,575 square feet.

The discernible components of the plant are shown on the accompanying line drawing and described in the key to annotations.
